Full Stack Developer and B.Sc. in Systems Engineering with over one year of experience in **web application development** within **multinational teams** under the **Scrum framework**. Passionate about creating technological solutions, with expertise in both **Front-End and Back-End development**, allowing me to manage projects end-to-end. Recognized for **creativity, customer orientation, innovation, and dedication**.

Professional Experience

Software Developer

CodeTogether – USA / Remote

March 2024 – October 2025

- Developed and designed applications, including the migration of legacy code to modern architectures applying **SOLID principles** and scalability best practices.
- Maintained and enhanced application modules, actively contributing to both **frontend (React, Next.js, Redux, TypeScript, JavaScript, HTML5, CSS3, TailwindCSS, UX/UI, Figma)** and **backend**.
- Delivered technical support to clients through comprehensive documentation to improve adoption and product understanding.
- Conducted **testing and validation of components** in new modules using tools like **Cypress**, ensuring quality and stability.
- Actively collaborated with **multidisciplinary remote teams** on new feature development.

Achievements:

- ✓ Optimized internal processes and improved efficiency in code maintenance.
 - ✓ Strengthened product stability, scalability, and user experience.
-

Systems Analyst / Developer

Incalpaca – Textile Company – Peru

March 2022 – December 2022

- Built programs in **GeneXus** based on business requirements, integrating results from daily **MySQL** queries into effective solutions.

- Improved existing functionalities and optimized production performance.
- Designed and executed **comprehensive testing** for both new and existing programs in production.

Achievement:

✓ Increased production efficiency by creating customized GeneXus programs tailored to users' daily management needs.

Programmer Analyst

De Larrobla & Asociados (DL&A) – Software for Financial Institutions – Peru

April 2021 – November 2021

- Developed programs in **GeneXus** and automated data exchange using **SOAPUI**.
- Enhanced program functionality and performance for financial clients.
- Queried and managed data in **AS400** and prepared detailed process documentation.

Achievement:

✓ Improved operational efficiency for financial institutions through custom program development and enhancement of existing solutions.

Technical Skills

React, Next.js, Redux, JavaScript, TypeScript, HTML5, CSS3, Sass, UX/UI, Cypress, TailwindCss, Figma, Node.js, Express, MySQL, PostgreSQL, SQL, Docker

Other Tools & Platforms: GeneXus, Git, Scrum, AS400, SOAPUI, Slack

Education

- **Full Stack Web Developer** – Soy Henry Bootcamp | May 2023 – September 2023
 - **B.Sc. in Systems Engineering** – Universidad Católica de Santa María | 2017 – 2021
Final GPA: **16.59 / 20**
-

Additional Training

- **Cisco Networking Academy:**
 - CCNA Routing & Switching: Introduction to Networks (2018)
 - CCNA R&S: Connecting Networks (2019)
 - CCNA R&S: Scaling Networks (2019)

- CCNA R&S: Routing and Switching Essentials (2019)
 - **GeneXus Analyst Course** – Universidad Católica de Santa María (2020)
 - **Oracle PL/SQL from Scratch** – Udemy (2022)
 - **Core Fundamentals of Oracle Application Express (APEX)** – Oracle University (2022)
-

Languages

- **English:** Advanced (C1)
